| 2. Hazard(s) identification                            |  |                |  |  |

| Physical hazards      | Flammable aerosols                                     | Category 2                  |
|-----------------------|--|-----------------------------|
|                       | Gases under pressure                                   | Liquefied gas               |
| Health hazards        | Skin corrosion/irritation                              | Category 2                  |
|                       | Serious eye damage/eye irritation                      | Category 2A                 |
|                       | Carcinogenicity  | Category 2                  |
|                       | Reproductive toxicity                                  | Category 2                  |
|                       | Specific target organ toxicity, single exposure        | Category 3 narcotic effects |
|                       | Specific target organ toxicity, repeated exposure      | Category 1                  |
| Environmental hazards | Hazardous to the aquatic environment, acute hazard     | Category 3                  |
|                       | Hazardous to the aquatic environment, long-term hazard | Category 3                  |
| OSHA defined hazards  | Not classified.  |                             |

Label elements

Danger

Hazard statement

Signal word

Flammable aerosol. Contains gas under pressure; may explode if heated. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure. Harmful to aquatic life. Harmful to aquatic life with long lasting effects.

#### Precautionary statement Prevention

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Do not breathe mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.

| Response                                     | If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. Call a poison center/doctor if you feel unwell. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. |
|--|--|
| Storage                                      | Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from<br>sunlight. Store in a well-ventilated place. Protect from sunlight. Do not expose to temperatures<br>exceeding 50°C/122°F.  |
| Disposal                                     | Dispose of contents/container in accordance with local/regional/national/international regulations.  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |
| Supplemental information                     | 83.18% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 83.18% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.  |

# 3. Composition/information on ingredients

**Mixtures** 

| Chemical name                            | Common name and synonyms | CAS number | %         |
|--|--------------------------|------------|-----------|
| ACETONE                                  |                          | 67-64-1    | 30 to <40 |
| PROPANE                                  |                          | 74-98-6    | 10 to <20 |
| TOLUENE                                  |                          | 108-88-3   | 10 to <20 |
| METHYL ETHYL KETONE                      |                          | 78-93-3    | 5 to <10  |
| N-BUTANE                                 |                          | 106-97-8   | 5 to <10  |
| PROPYLENE GLYCOL METHYL<br>ETHER ACETATE |                          | 108-65-6   | 5 to <10  |
| XYLENE                                   |                          | 1330-20-7  | 1 to <5   |
| CARBON BLACK                             |                          | 1333-86-4  | 0.1 to <1 |
| ETHYLBENZENE                             |                          | 100-41-4   | 0.1 to <1 |
| TITANIUM DIOXIDE                         |                          | 13463-67-7 | 0.1 to <1 |
| Other components below reportable        | elevels                  |            | 10 to <20 |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

#### 4. First-aid measures

| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.   |
|--|---|
| Skin contact   | Remove contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.   |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.   |
| Ingestion  | Not likely, due to the form of the product. In the unlikely event of swallowing contact a physician or poison control center. Rinse mouth.  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation.<br>Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. Prolonged exposure may cause chronic effects.                                       |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.  |
| General information  | IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. |
| 5. Fire-fighting measures  |   |
|  | Weter for Alashal resistant form. Dry sharring a contain distribution (000)   |

# Suitable extinguishing mediaWater fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).Unsuitable extinguishing<br/>mediaDo not use water jet as an extinguisher, as this will spread the fire.

| Specific hazards arising from the chemical                       | Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.   |
|--|---|
| Special protective equipment<br>and precautions for firefighters | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.  |
| Fire fighting<br>equipment/instructions                          | In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been exposed to heat. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.  |
| General fire hazards   | Flammable aerosol. Contents under pressure. Pressurized container may explode when exposed to heat or flame.  |

#### 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |
|---|---|
| Methods and materials for containment and cleaning up                     | Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent product from entering drains. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.   |
| Environmental precautions   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.  |
| 7. Handling and storage   |   |
| Precautions for safe handling   | Obtain special instructions before use. Do not handle until all safety precautions have been read   |

and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Purge air from system before introducing gas. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Do not re-use empty containers. Do not breathe mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices. Conditions for safe storage, Level 2 Aerosol. including any incompatibilities Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures

Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Cylinders should be stored upright, with valve protection cap in place, and firmly secured to prevent falling or being knocked over. Stored containers should be periodically checked for general condition and leakage. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

# 8. Exposure controls/personal protection

#### **Occupational exposure limits**

#### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

# 10. Stability and reactivity

| Reactivity                          | The product is stable and non-reactive under normal conditions of use, storage and transport.                                 |
|-------------------------------------|---|
| Chemical stability                  | Material is stable under normal conditions.   |
| Possibility of hazardous reactions  | No dangerous reaction known under conditions of normal use.   |
| Conditions to avoid                 | Heat. Avoid temperatures exceeding the flash point. Contact with incompatible materials.                                      |
| Incompatible materials              | Strong acids. Acids. Strong oxidizing agents. Nitrates. Halogens. Ammonia. Amines. Isocyanates. Fluorine. Caustics. Chlorine. |
| Hazardous decomposition<br>products | No hazardous decomposition products are known.  |

# 11. Toxicological information

#### Information on likely routes of exposure

| Inhalation   | May cause damage to organs through prolonged or repeated exposure by inhalation. May cause drowsiness and dizziness. Headache. Nausea, vomiting.  |
|--|---|
| Skin contact   | Causes skin irritation.   |
| Eye contact  | Causes serious eye irritation.  |
| Ingestion  | Expected to be a low ingestion hazard.  |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation.<br>Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. |

| XYLENE                       | 3.12 - 3.2  |  |
| Mobility in soil             | No data available.  |  |
| Other adverse effects        | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |  |

# 13. Disposal considerations

| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. |
|--|---|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.  |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.  |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).  |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.  |

**General information** 

Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers: Ensure that containers are firmly secured. Ensure cylinder valve is closed and not leaking. Ensure valve outlet cap nut or plug (where provided) is correctly fitted. Ensure valve protection device (where provided) is correctly fitted. Ensure adequate ventilation. Ensure compliance with applicable regulations.

ACETONE (CAS 67-64-1)

country(s). Issue date 02-03-2017 02-04-2017 **Revision date** Version # 02

CARBON BLACK (CAS 1333-86-4) ETHYLBENZENE (CAS 100-41-4) METHYL ETHYL KETONE (CAS 78-93-3) N-BUTANE (CAS 106-97-8) PROPANE (CAS 74-98-6) TITANIUM DIOXIDE (CAS 13463-67-7) TOLUENE (CAS 108-88-3) XYLENE (CAS 1330-20-7)

#### **US. Rhode Island RTK**

ACETONE (CAS 67-64-1) ETHYLBENZENE (CAS 100-41-4) METHYL ETHYL KETONE (CAS 78-93-3) N-BUTANE (CAS 106-97-8) PROPANE (CAS 74-98-6) TOLUENE (CAS 108-88-3) XYLENE (CAS 1330-20-7)

#### **US. California Proposition 65**

WARNING: This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.

#### US - California Proposition 65 - CRT: Listed date/Carcinogenic substance

| 4-Methyl-2-pentanone (CAS 108-10-1)   | Listed: November 4, 2011  |  |  |
|---|---------------------------|--|--|
| CARBON BLACK (CAS 1333-86-4)  | Listed: February 21, 2003 |  |  |
| ETHYL ALCOHOL (CAS 64-17-5)   | Listed: April 29, 2011    |  |  |
|   | Listed: July 1, 1988      |  |  |
| ETHYLBENZENE (CAS 100-41-4)   | Listed: June 11, 2004     |  |  |
| SILICA, CRYSTALLINE QUARTZ (CAS 14808-60-7)                                 | Listed: October 1, 1988   |  |  |
| TITANIUM DIOXIDE (CAS 13463-67-7)   | Listed: September 2, 2011 |  |  |
| US - California Proposition 65 - CRT: Listed date/Developmental toxin       |                           |  |  |
| 4-Methyl-2-pentanone (CAS 108-10-1)   | Listed: March 28, 2014    |  |  |
| ETHYL ALCOHOL (CAS 64-17-5)   | Listed: October 1, 1987   |  |  |
| METHANOL (CAS 67-56-1)  | Listed: March 16, 2012    |  |  |
| TOLUENE (CAS 108-88-3)  | Listed: January 1, 1991   |  |  |
| US - California Proposition 65 - CRT: Listed date/Female reproductive toxin |                           |  |  |

| 03 - Camornia Proposition 05 - Civi. L | isted date/i emale reproductive toxin |
